

White Elephant Gift Exchange

Here's how to play:

1. Everyone brings one wrapped gift of \$10 value or less.
2. Next, everyone draws a number.
3. The person with the lowest number chooses a wrapped gift and opens it for everyone to see.
4. Here's where things get interesting: The person with the next lowest number can either take the opened gift or select a "new" wrapped gift. If they choose a "new" gift, they must open it for all to see. A gift can be stolen two (2) times and then it is locked and can not be stolen again.
5. This trend goes on until each person is allowed to either unwrap a "new" gift or take any of the gifts already opened.
6. If a gift is taken from someone, that person gets to immediately choose another "new" gift to open or they can get someone else's gift that has not been locked.
7. When all the gifts have been opened, the person with the lowest number, the person who went first, gets to trade with anyone who's gift is not locked or keep their gift they ended up with.
